CLASSY KITCHENS

MID-MOD, GLAM AND COLORFUL

HILLSIDE CHARM IN VAIL
ASPEN "SPEC-TACULAR"

Polished Sophistication

WITH A CRAMPED LAYOUT, two islands and aging cherry cabinetry, this Cherry Creek kitchen was sorely in need of renovation when Sarah Spiroff, senior designer at Littleton-based Kitchen Distributors, stepped in to help reimagine the space for today. Spiroff transformed the space by creating one large island and adding cozy bench seating beside the bay window. New slate-stained maple cabinets are set off with polished brass, knurled hardware and Taj Mahal quartzite countertops, and a bespoke matte brass hood with polished brass strapping was installed above the new Wolf range along with a custom laser-cut, magnolia bud backsplash in onyx and marble. “The meticulous overhaul achieved a seamless blend of functional sophistication and timeless elegance,” Spiroff says. “Architectural enhancements, integrated spaces and top-tier appliances exemplified a perfect balance of practicality and opulence—every element, from the cabinetry to the stunning backsplash, contributed to an atmosphere of unparalleled luxury and visual intrigue.” ❖
